

In the period 1st April 2011 to 31st March 2012, Kingsley Print & Design Ltd used 3,273,985 sheets across the revive range of recycled papers instead of virgin fibre grades.

This reduced the environmental impact by*:

98,474 kg of landfill

2,430,941 litres of water

241,766 kWh of electricity

32,197 kg CO2 and greenhouse gases

160,020 kg of wood

Source:

European BREF (data on virgin fibre paper).

Carbon footprint data audited by the CarbonNeutral Company.

*compared to a non recycled paper
